INITIAL APPROVAL OF VENTURE ACTIVITIES

As you know from reading the Confidential Information Memorandum (the “Memorandum”) for the ANTELOPE VALLEY JOINT VENTURE (the “Venture”), the Venture was formed for the purpose of acquiring an interest in eight (8) oil and gas wells located in Campbell and Converse Counties, Wyoming (the Prospect Wells”) and to participate in the drilling and completion thereof. To achieve this purpose, the Venture offered up to 10 units of Venture interests (the “Units”) at a price of \$100,000 per Unit.

**Proposal 1**

Approval of Managing Venturer

As described in the Memorandum and the Joint Venture Agreement of the Venture (the “Venture Agreement”), Eagle Natural Resources, LLC (“ENR”) is named as the initial Managing Venturer to carry out the day-to-day business of the Venture. This proposal (“Proposal 1”) is to affirm ENR as the Managing Venturer of the Venture.

Vote Required:

A vote of the Venturers owning a simple majority of the Units shall pass and approve Proposal 1. If a majority in interest of the Venturers vote against Proposal 1, then the Venture will undertake to elect a new Managing Venturer pursuant to Section 5.7 of the Venture Agreement. ENR would continue to serve as Managing Venturer until such election.

**Proposal 2**

Approval of Operator

As described in the Memorandum and the Venture Agreement, EOG Resources is to serve as the Operator of the Prospect Wells in the Reyes Project and WRC Energy is to serve as the Operator of the Prospect Wells in the Bald Mountain and Florence Pass Project. This proposal (“Proposal 2”) is to affirm designation of EOG Resources and WRC Energy as the Operators of the Prospect Wells for the Venture.

Vote Required:

A vote of the Venturers owning a simple majority of the Units shall pass and approve Proposal 2. If a majority in interest of the Venturers vote against Proposal 2, then the Venture will undertake to seek replacement of EOG Resources and WRC Energy and in favor of electing new Operators for the Prospect Wells under the terms of the Operating Agreements. EOG Resources and WRC Energy would continue to serve as the Operators until such election. As the Venture is only expected to hold a minority of the working interest in the Prospect Wells, there can be no assurance that the Venture will be successful in replacing the Operators.

### **Proposal 3**

#### Approval of the Prospect Wells

As described in the Memorandum, the Venture intends to acquire working interest in the Prospect Wells (as described in the Memorandum), subject to increase or decrease as described in the Memorandum and in the Venture Agreement, and to participate in the drilling and completion thereof. This proposal (“Proposal 3”) is to affirm the Venture’s selection of and acquisition of working interest in the Prospect Wells as provided in the Memorandum.

#### Vote Required:

A vote of the Venturers owning a simple majority of the Units shall pass and approve Proposal 3. If a majority in interest of the Venturers vote against Proposal 3, then the Venture will undertake to identify new wells in which to acquire interests.

### **Proposal 4**

#### Approval of Venture Expenditures and Turnkey Contract

As described in the Memorandum, in connection with the Venture’s investment in the Prospect Wells, the Venture intends to enter into a Turnkey Contract with Eagle Natural Resources (the “Turnkey Contract”) pursuant to which Eagle Natural Resources will, among other things, pay for the Venture’s share of the costs to drill and complete the Prospect Wells, and pay all Organizational Costs (as defined in the Memorandum) relating thereto, all for an aggregate fixed price to the Venture of up to \$1,000,000 or \$100,000 per Unit subscribed.

#### Vote Required:

A vote of the Venturers owning a simple majority of the Units shall pass and approve Proposal 4. If a majority in interest of the Venturers vote against Proposal 4, then Eagle Natural Resources will undertake attempt to negotiate a new Turnkey Contract with terms acceptable to the Venture.

**BALLOT**

**ACKNOWLEDGEMENT AND VOTE OF PARTICIPATION**
